**Re: Missouri RSA 5 Partnership d/b/a Chariton Valley Wireless Services
AMENDMENT TO SECOND SUPPLEMENT AND AMENDMENT TO
REQUEST FOR WAIVER OF SECTION 20.18(h)(1)(i)(A)
PS Docket No. 07-114**

Dear Secretary Dortch:

Missouri RSA 5 Partnership d/b/a Chariton Valley Wireless Services (“Chariton Valley”), by its attorneys, hereby amends the Second Supplement and Amendment to Request for Waiver of Section 20.18(h)(1)(i)(A) (“Second Supplement”) filed on May 22, 2014, to add as Attachment 7, the confidential version of a letter from the Shelby County E-911 (“Shelby County”) to Chariton Valley indicating Shelby County’s support of Chariton Valley’s transition from its legacy Global System for Mobile Communications (“GSM”) network to its Code Division Multiple Access (“CDMA”) and Long Term Evolution (“LTE”) networks. Chariton Valley also seeks confidential treatment of confidential information in the Shelby County letter, for the reasons set forth in the Request for Confidential Treatment submitted with the Second Supplement.

Attached please find an original and four (4) copies of the Shelby County letter containing confidential information. We are also filing a redacted copy of this letter via ECFS.

Respectfully submitted,

Gregory W. Whiteaker
Counsel for Missouri RSA 5 Partnership d/b/a Chariton Valley Wireless Services

RE: Chariton Valley Transition to Handset-based E911 Solution

Dear Jim:

This letter expresses our continued support for the efforts of Chariton Valley Wireless ("Chariton Valley") to transition its subscribers from its legacy Global System for Mobile Communications ("GSM") network to its Code Division Multiple Access ("CDMA") and Long Term Evolution ("LTE") networks. It is our understanding that Chariton Valley has launched its CDMA and LTE networks, which utilize a handset-based Enhanced 911 ("E911") location accuracy solution. Chariton Valley has informed us that it has transitioned of its wireless subscribers from its GSM network to its CDMA/LTE networks. Chariton Valley also has informed us that it is continuing to transition its remaining GSM customers over to its CDMA/LTE networks, but that additional time is required in order to transition all of Chariton Valley's customers. In addition, Chariton Valley has informed us that, at this point, the complete decommissioning of its legacy GSM network would result in a loss of service – including the loss of 911 service – to GSM subscribers in certain rural areas.

Based on our understanding as set-forth above, we continue to support Chariton Valley's efforts to transition its customers to its CDMA/LTE networks, and look forward to working with Chariton Valley in the future.

Sincerely,

Mary Lu McConnell
Shelby County E-911 Director
